

Dear Friends,

**“Let us remember: One book, one pen, one child and one teacher can change the world.” – Malala Yousafzai**

This quote probably sums up why exactly schools are important and why parents want the best for their children as far as education is concerned. At MDVM we know that this search for the best has brought you to our website. Thank you for considering MDVM School for the same. As you seek the best school for your child, I want to take this opportunity to give you a sneak peek into how learning takes place at our school.

We believe that when a child enters a school, he/she has countless hopes and dreams in their eyes, they want to conquer the world and expect their teachers to lead their way. We wish to provide an environment where a child feels that they can spread their wings and fly high, that even stars are not beyond their reach. Our school provides the right balance between academics and extracurricular activities to give them a holistic development.

Our staff is highly qualified not only academically, but is also well aware of the recent developments in the field of education. Our school values involvement of parents and feels that its only when students, teachers and parents come together, then we can succeed. Our students have time and again brought us laurels, which only goes to show how we have accomplished our goals as educators.

We are aware that as parents the search for your child’s next school can be stressful, and perplexing. Our website will give you a tour of our school, however we feel that the best way to discover our school is to come and take a tour.

If you discover that this website describes a school and a community that appeals to you, then we look forward to getting to know you and providing any assistance that we can to help you in your quest for your child’s next school.

Sincerely

Dr. Satyaveer Singh

Principal
